Measurement Guide

- Record all measurements in inches (do not round) - Make sure that all recorded measurements are clearly legible - Assign one person to determine and record all measurements
Record Ceiling Heights & Wall Lengths - Draw an outline of the room - Record the ceiling height on your outline - Measuring from the floor to the ceiling or base of the soffit - Record the wall lengths on your outline - Start in one corner of your project area and measure to an adjacent wall - Continue around the room until all necessary walls have been measured
Measure Windows - Include all window trim as part of the measurements for windows - Measure and record each window's width, height, and the distance from the window to the floor on the outline - Add window locations to your outline - Start at the corner of any wall that contains a window and measure to the outside trim or edge of the window - Continue around the room until all necessary windows have been added to your layout
Measure Appliances - Measure or research and record the width, height, and depth of your sink and all appliances - Add the sink location to your outline - Start at the corner of the sink wall and measure to the center of your sink - Add the appliance locations to your outline - Note the location of your dishwasher in relation to your sink (left or right) if applicable - Start at the corner of the range wall and measure to the edge of your range - Start at the corner of the refrigerator wall and measure to the edge of your refrigerator
